GMC FOR GLASS INDUSTRY

France

JF-2 series Surface Stress Meter

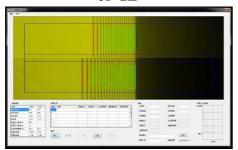

The JF-2 series are developed for measuring the surface stress of chemical tempered glass.

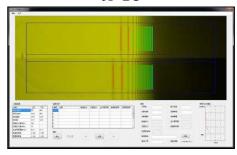

JF-2E

JF-2C

Single ion exchange glass

Double ion exchange glass

Feature:

Easy operation

Small size

Single / double ion exchange glass

Manual operation in case of bad image (with PC software)

Specification:

Refractive Index: 1.47~1.53(other RI range customized according to requirement)

Stress:1500MPa Depth: 100um

Accuracy: 20 Mpa/5um Light source: 590/750 nm

Operation System: JF-2E integrated PDA or JF-2 PC software (Windows 7 with dot net fame work 3.5

or about)

Weight: 0.3kg(without PDA)/0.5kg(with PDA)
